

Websites that work as hard as your *business* does.

I build custom websites for shops, brands, and service businesses. Designed, coded, and launched by me — **with AI features your competitors don't have.**

Now AI/ML Engineer at Arimac Digital • Recent Cursor Sri Lanka community platform

• Based in Colombo, Sri Lanka

RECENT WORK

Four sites. Four very different *jobs*.

Each one designed, built, and launched by me end-to-end. Three are live right now, one is currently in production.

EVENT WEBSITE • 2026

Cursor Colombo *Buildathon*.

Registration site for Sri Lanka's largest 24-hour hackathon. Schedule, tracks, 30+ judges, 17 partners, and live winner reveals — all in one site.

Math. Done Properly.

SERVICE SITE • 2026

Math, done *properly*.

My own math tutoring business. Bold typography, animations, video lessons, student reviews, and a WhatsApp booking flow — built to convert first-time visitors into trial bookings.

PRIVATE CHALETs

OUR STORY

Ambewela's Hidden Paradise

Welcome to Bellevue Chalets by Pushella, a peaceful retreat nestled in the misty mountains of Ambewela. Experience a one-of-a-kind luxury chalet stay with warm wooden accents, surrounded by lush greenery and the soothing presence of flowing waters.

From farm-to-table meals prepared with fresh local ingredients to thoughtful touches throughout your stay, every moment with us is crafted to be remembered forever.

From the first idea to a live *domain*.

Pick the one that sounds like you. Each is a fixed scope and fixed price — no surprises.

01

Online shop

Sell from your own site instead of a marketplace. Built-in payments, order tracking, and automatic confirmation emails. You keep the margins.

E-COMMERCE

PAYMENTS

INVENTORY

02

Booking site

Customers book themselves, 24/7. Syncs to your calendar, sends reminders, takes deposits. Works for salons, clinics, tutors, restaurants — anything time-based.

CALENDAR SYNC

REMINDERS

DEPOSITS

03

Brand landing page

One clear page that says who you are and gets people to act — call, book, or buy. Ideal for new services, freelancers, and brand-new businesses.

SEO-READY

04

Full brand + web

Starting from zero? I'll do the logo, brand colours, domain, and website so everything matches. One look, one voice, one person handling it all.

BRANDING

IDENTITY

WEB

AI features your competitors *won't have*.

Most local web designers stop at making it look good. I'm also an AI engineer — so I can add smart features that save you time and make your site sharper than the next one.

+ **Smart search & recommendations**

Customers find what they need faster. You sell more.

+ **AI customer service & chat**

Answers FAQs at 2 AM so you don't have to.

+ **Automated content & descriptions**

Generate product copy, blog drafts, and email replies on demand.

+ **Lead qualification & smart forms**

Filter serious enquiries from noise before they hit your inbox.

WHY ME

Most designers stop at how it looks. I build what it *does*.

Three skills, one builder. No need to hire a designer, a developer, and an AI consultant separately. You just talk to me.

Designed

I make it look professional. Clean layouts, modern type, mobile-first. Built so people actually use it — not just stare at it.

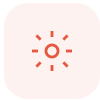

- + UI / UX
- + Brand systems
- + Conversion-focused
- + Animation

Engineered

I make it work reliably. Fast loading, secure, ready for real traffic. I've built enterprise systems for AA Japan — so I know how to handle the messy parts.

- + HTML · CSS · JS
- + Backend & APIs
- + Performance
- + SEO foundations

Intelligent

I add AI most local sites don't have. Chatbots that answer at midnight. Smart search. Automations. I'm an AI engineer at Arimac Digital by day — this is my actual day job.

- + AI integrations
- + Automations
- + Smart search
- + ML-assisted tools

ABOUT

I build & I *teach*.

I'm an AI engineer at Arimac Digital. I build websites on the side. And I tutor math too. That last part actually matters — it means I can explain technical things in plain language, so you'll never feel lost during a project.

"I make websites that look good AND work properly. And I explain every decision in plain English — no jargon, no nonsense."

I've built enterprise software for AA Japan, AI products at Arimac Digital, and community platforms used by 1,000+ developers. That mix is what makes the difference when your website needs to actually do something useful.

INTERN → FULL-TIME AT ARIMAC

EXPERIENCE

Where I've *worked*.

Mar 2026 – Now

Full-time • Sri Lanka

Arimac Digital — Associate Software Engineer (AI/ML)

CENTRE OF EXCELLENCE

Sri Lanka's leading digital studio. I design and engineer AI systems, automation pipelines, and ML features embedded into client-facing products. Promoted from intern to full-time in six months.

- CLIENT PROJECTS UNDER NDA — HAPPY TO DISCUSS IN CONVERSATION

Sep 2025 – Mar 2026

Internship

Arimac Digital — AI/ML Intern

CENTRE OF EXCELLENCE

ML pipeline development, model evaluation frameworks, and AI-integrated product features for client builds. Promoted to full-time within the standard internship window.

HOW WE WORK

Clear scope. Clear price. *No surprises.*

You'll know what's happening every step of the way. Here's the standard rhythm — adjusted to fit each project.

01

Discovery call

A free 30-minute call. I learn your business, you learn how I work. No commitment.

30 MINUTES • FREE

02

Proposal & quote

Clear scope, fixed price, fixed timeline. You see exactly what you're getting before you sign anything.

WITHIN 48 HOURS

03

Design & build

Weekly check-ins, live progress links, plain-language updates. You watch the site come together.

2 - 6 WEEKS TYPICAL

04

Launch & support

I deploy to your domain. Then 30 days of free tweaks and questions while you settle in.

30 DAYS POST-LAUNCH

LET'S TALK

Book a free *discovery call.*

30 minutes, no commitment. Tell me what you're trying to build, and I'll tell you honestly whether I'm the right person for it.
